Manufacturers Certification Statement for Tax Credit Camelot Windows

Northeast Building Products Corporation is headquartered at 4280 Aramingo Avenue, Philadelphia, Pa. 19124. Northeast Building Products manufactures exterior windows that when fabricated with optional Low-E and argon gas filled glass have qualified for Energy Star™ designation in the zone specified on the Energy Star label.

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Tax Act of 2009. This bill extends and modifies the tax credits for windows, doors and skylights established in the Energy Policy Act of 2005. The following guidance is not intended as legal advice, and you should consult a tax professional with specific questions:

To qualify for the tax credit, windows, doors and skylights placed in service after February 17, 2009 must have qualified for a U-Factor and Solar Heat Gain Coefficient (SHGC) designation of less than or equal to 0.30.

Qualifying products purchased between February 17, 2009 and December 31, 2010 are eligible for a tax credit equal to 30 percent of the product cost. The maximum amount a homeowner credit for all improvements combined (including windows, roofing, insulation, HVAC, and water heaters) is \$1500.00 during 2009 and 2010.

The following Northeast Building Products Corporation models and options meet this requirement:
